## Newsletter No. 20 - 13th August

Greetings,

We live in a very busy world and at Tyalla Primary School, life is never dull.

One of the great things that I love about our school is how exciting learning can be and the fantastic work and attitude that I see throughout the school.

Earlier in the week I had the pleasure of attending the KFS classroom that was busily making a 3D model of our school. The children were most excited and proud of their work. They even went to great lengths to tell me that it took a long time to build .... 'even longer than 3 minutes to make'. I was so proud of them and thought that I would share a photo of their grand achievement. Well done.

I think it is really wonderful that we are part of a positive school that celebrates student achievement and where the students are our most important consideration. Let's face it, our students of today are going to the leaders of tomorrow.

The 3D model of the school that took more than 3 minutes to build ... well done KFS!

Have a great week.

Stewart Copeland
